

PRODUCT INFORMATION

SKU# **G-IS-C**

Application:

Industrial Soap is ideal for use in:

- * Industrial facilities
- * Automotive workshops
- * Garages, Warehouses
- * And other areas where heavy-duty cleaning is required

Description:

Industrial Soap is a high-performance cleaning agent designed to effectively remove oils, greases, and other stubborn dirt from floors and surfaces. It features a concentrated formula that can be diluted up to 1:80, making it economical and efficient for various cleaning applications.

Direction of use:

1. Dilution: Dilute Industrial Soap with water according to the desired cleaning strength.
For general cleaning, a dilution ratio of 1:80 is recommended.
For more stubborn stains or heavily soiled areas, a stronger solution may be necessary.
2. Application: Apply the diluted soap solution to the surface to be cleaned.
Allow the solution to sit for a few minutes to penetrate the dirt.
3. Scrubbing: Use a brush or mop to scrub the surface thoroughly.
For heavily soiled areas, you may need to repeat the process.
4. Rinsing: Rinse the surface thoroughly with clean water to remove any residual soap and dirt.

Dilution Guide:

Industrial Soap is a concentrated product that must be diluted before use.

The recommended dilution ratio depends on the severity of the cleaning task:

- . Heavy-duty cleaning: 1:20 to 1:40 dilution
- . Medium-duty cleaning: 1:40 to 1:60 dilution
- . Light-duty cleaning: 1:60 to 1:80 dilution

Technical data:

Color / appearance	Clear - no color
Odor	Materials Characteristic.
Base	Anionic surfactants 5%-15%, non-ionic surfactants <5%, & water.
pH range	Alkaline
Shelf life	36 months - Unopened.

Available pack sizes:

Plastic packs	250ml - 5L - 20L
Retail boxes	24 x 250ml
